I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I  
OBJECT to the definition of "inordinate amount" which restricts the availability and  
the right to obtain necessary compounded medications by limiting the number of  
prescriptions that can be shipped across state lines from specialized  
compounding pharmacies.

Comments: The medication I am currently receiving from a compounding  
pharmacy in Colorado (I live in California) was prescribed by a  
respected physician and is essential for my current health needs.  
It is unavailable locally or from commercial pharmaceutical manufac-  
turers - nor can I use a more standardized product because of my  
previous health history. The effect on my health would be essentially  
disastrous were the Colorado product to become unavailable to me.
